

WATER & WASTE WATER PUMPS

SUBMERSIBLE WASTE WATER (SEWAGE) PUMPS (WWP)

IDRO Group offers two different models of submersible waste water (sewage) pumps.

These quality pumps from the SEG range are specifically designed for pumping effluent and untreated sewage and are noted for reducing energy consumption and keeping downtime costs to a minimum, while maintaining peak performance.

ADDED VALUE

IDRO Group has added value to these quality waste water pumps. Each pump comes with 50m of cable and a flush valve not on the standard product. Control Panels are also available for these pumps.

TECHNICAL DATA

| PUMP CODE (quote on order) ► | WWP 5000/20 SEG.40.15.2.50B | WWP 10000/25 SEG.40.26.2.50B |
|---|--|---------------------------------|
| Liquid pumped | Waste water (sewage) | |
| Flow rate (litres/hour) | 5000 | 10000 |
| Dynamic head (m) | 20 | 25 |
| Pump housing | Cast iron | Cast Iron |
| Impeller | Cast Iron grinder type | Cast Iron grinder type |
| Rated voltage | 3x 400-415 V | 3x 400-415 V |
| Rated speed | 2700 RPM | 2870 RPM |
| Pump net weight* (kg) | 38 (pump only) | 57 (pump only) |
| Pump gross weight* (kg) | 145.5 | 165.5 |
| Pump shipping volume* (m ³) | 1.69 | 1.75 |
| Accessories included | 50 m cable flushing valve | 50 m cable flushing valve |
| Recommended Spare Parts | Impeller (when ordering please also specify pump model) | |
| | Gasket (O-ring) (when ordering please also specify pump model) | |
| | Shaft Seal Kit (when ordering please also specify pump model) | |
| | Grinder Kit Kit (when ordering please also specify pump model) | |
| | Clamp Kit Kit (when ordering please also specify pump model) | |
| | Lifting Bracket Kit Kit (when ordering please also specify pump model) | |
| | Bearing Kit Kit (when ordering please also specify pump model) | |

* Weights and volume based on pump only. Shipping dimensions will depend on the packing configurations.
